www.TerraCat.co.nz

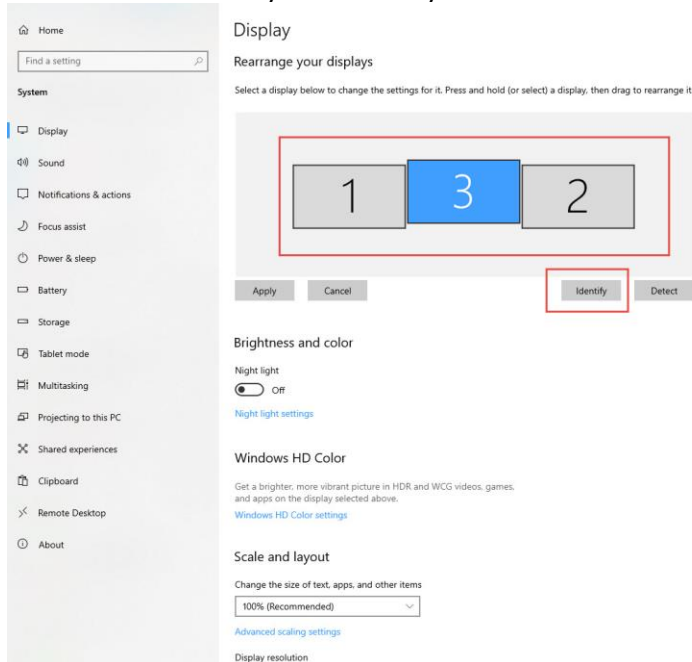

1. Click on the start menu and type in **display** > click **display settings**

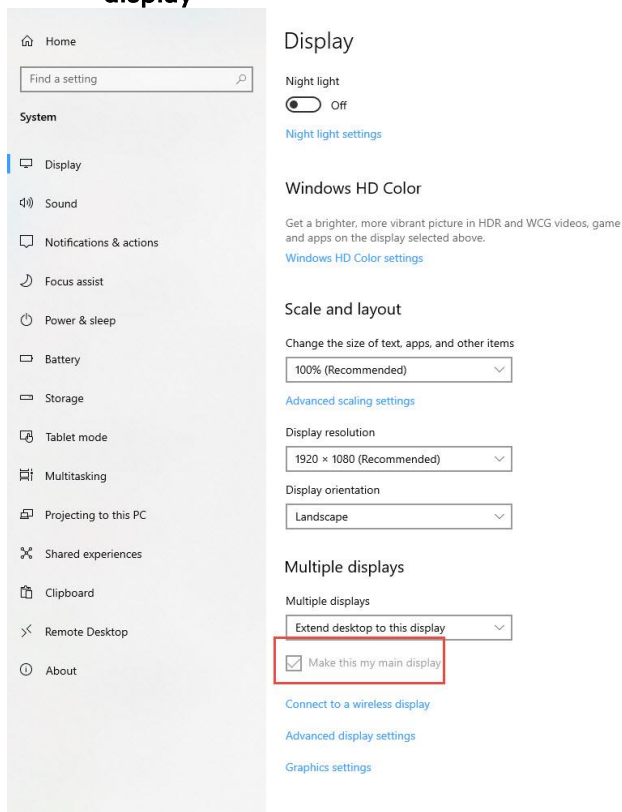

2. Under multiple displays, change the setting to **extend desktop to this display**

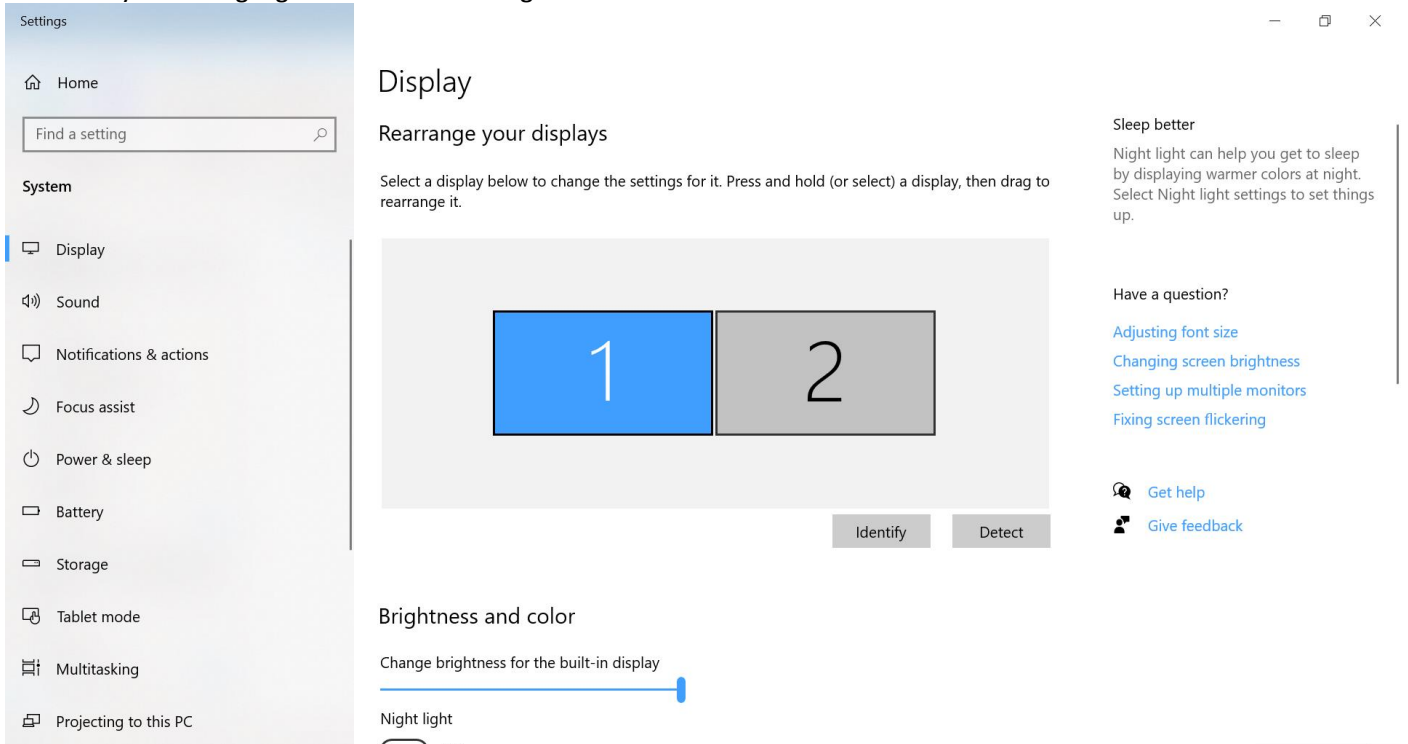

- Click **identify** to figure out what number is allocated to each monitor then click on the number that you want as your main screen

- Scroll down the page and under **multiple displays** tick the box next to **make this my main display**

5. If you are finding that your mouse isn't moving across the screens the way you want to, try rearranging them in the settings like below

Settings

Home

Find a setting

System

- Display
- Sound
- Notifications & actions
- Focus assist
- Power & sleep
- Battery
- Storage
- Tablet mode
- Multitasking
- Projecting to this PC

Display

Rearrange your displays

Select a display below to change the settings for it. Press and hold (or select) a display, then drag to rearrange it.
