## Clearing all usage data

Please bear in mind that clearing all usage data will unfortunately remove all personalisations (Moved columns, columns that you have added etc, your favourites will be fine however)

### 1. Click File > Tools > Options

### 2. Click Usage Data > All Usage Data

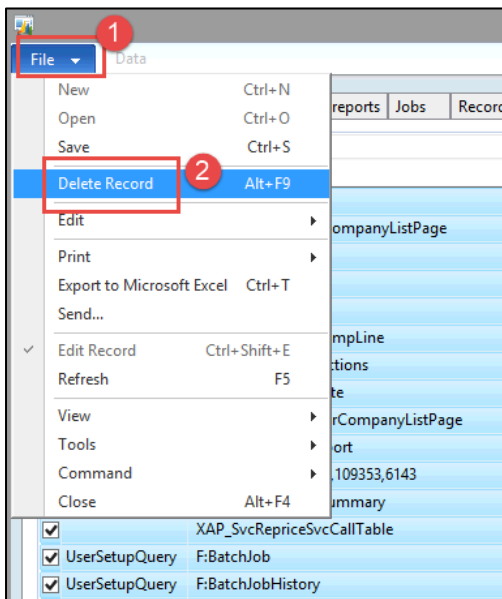

3. Tick the box to the left which will select all your usage data (making sure there are no filters in the top columns)

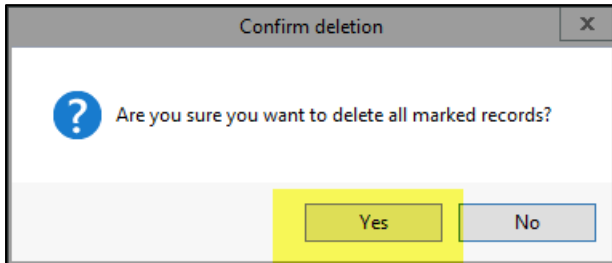

Usage data (1) - User ID: JWAdmin, J
