# MINI HYDRAULIC EXCAVATOR

## ATTACHMENTS | 2020

The shape of Cat buckets improve digging, loading and material retention. Each bucket is made of high-strength, tempered steel. Select from a range of bucket teeth.

Pin on buckets can be used in combination with applicable pin-grabber quick coupler.

## COMPACTION WHEELS

Cat compaction wheels provide a low cost option for trench compaction. The wheels feature tapered roller bearings and tampered foot design for smooth operation. Six to ten passes are usually adequate to achieve compaction in normal soil conditions, dependent on the required compaction levels.

Pin on compaction wheels can be used in combination with applicable pin grabber quick coupler.

**PIN LOCK  
MANUAL  
COUPLERS**

Fully compatible with Wain-Roy and Gannon-style buckets, the Cat Pin Lock/Tilt Lock Coupler system is the key to new levels of performance on any Cat Mini Excavator. New machines can take advantage of existing bucket inventory. New buckets and work tools can be shared with similarly-sized competitive machines across a fleet. One machine can fill many roles on a job site.

Cat Dual Lock™ pin grabber couplers allow operators to change attachments in seconds, increasing job efficiency and enabling one machine to do multiple tasks. We offer two, easy-to-use options: hydraulic (controlled from the cab) and mechanical. All Cat models include primary and secondary locking systems to ensure what you put on your machine, stays on.

S Type Couplers for Mini Excavators are an optimal design for a dedicated quick coupler solution. Low offset, Pin Grabber ability, and a wedge type locking system ensures a tight fit, no attachment play during use. It also creates the solution to exchange worktools among different platforms and brands. In combination with the Tilt Rotate System that can be equipped with an S Type Coupler and the variety of different buckets offered, it provides a complete attachment solution for Mini Excavators. The coupler is designed with the highest safety standards and comes with a visible locking mechanism.

# MINI HYDRAULIC EXCAVATOR ATTACHMENTS | 2020

Cat Tiltrotators for excavators provide 360-degree rotation and 40-degree tilting action side-to-side, allowing the machine to reach more work areas from a single position. The tiltrotator enables the operator to maneuver around posts, rocks, and other obstacles, as well as to more easily reach along ditch edges.

# MINI HYDRAULIC EXCAVATOR ATTACHMENTS | 2020

Cat Skid Steer Adapters allow connecting to certain recommended Skid Steer Interface Type attachments. Adapters are available for both Mini Hydraulic Excavators and Compact Wheel Loaders, to allow sharing of tools across different machine families and reducing job site storage space storage by eliminating machine specific tools.
