Add a new Indirect activity category:

The screenshot shows the Microsoft Dynamics AX Setup window for 'GGNZ' under 'Human resources' > 'Setup'. The 'Indirect activity categories' are listed in a table within the 'Indirect activities (1 - ggnz)' window.

Category	Description	Reg. type
NON-SRV-HR	Hours not included in Total Service Hours calculation	Job
ACC WORK	ACC Work Related Injury	Job
H & SAFETY	Health And Safety	Job
INTERNAL	Indirects which are not lost hours	Job
LEAVE	All Types Of Paid Leave	Job
LOST	All Non-Chargeable Hours	Job
LUNCH BRAK	Lunch Break	Break
NON-CHARGE	Non Chargeable Hours	Job
PAY O/RIDE	Pay Rate Overriden	Switch code
PRODUCTION	Labour on Production Orders	Job
System	System values	Job
TRAINING	Tradesman And Apprentices All Training	Job

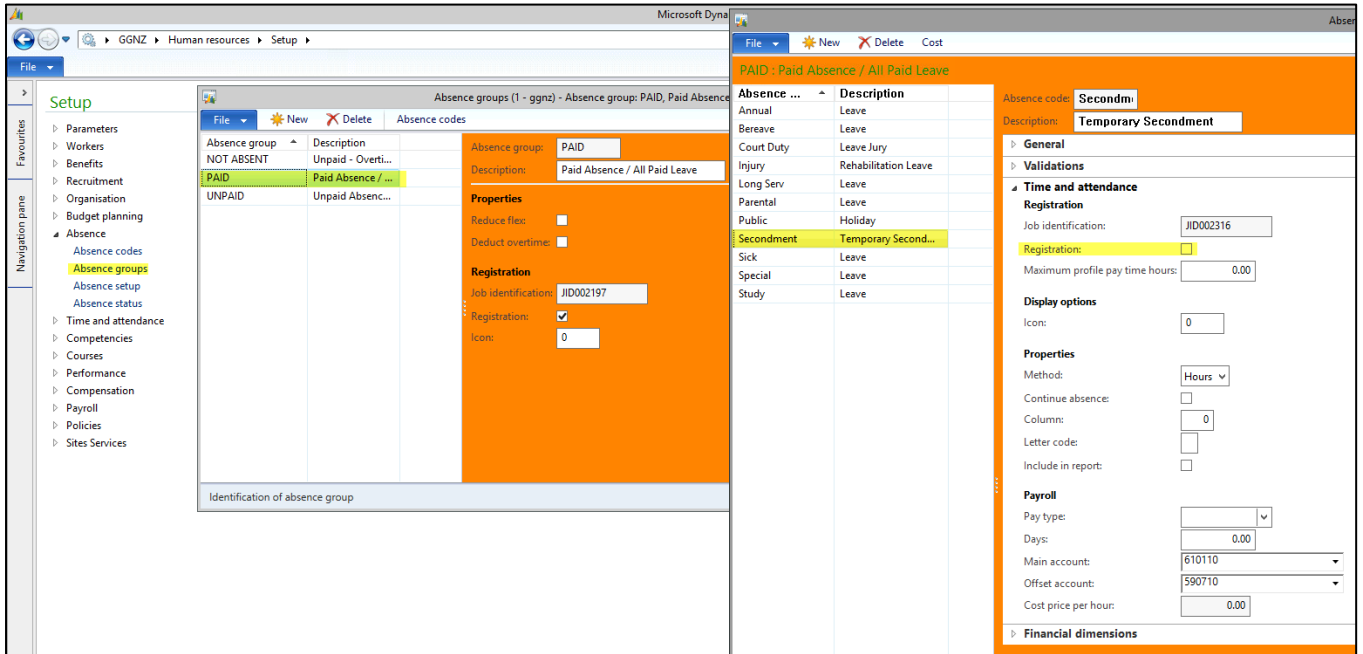

Add the following activities to the new Indirect activity category:

The screenshot shows the 'Cost' window with the 'Financial dimensions' tab selected. The table below lists the activities added to the 'NON-SRV-HR' category.

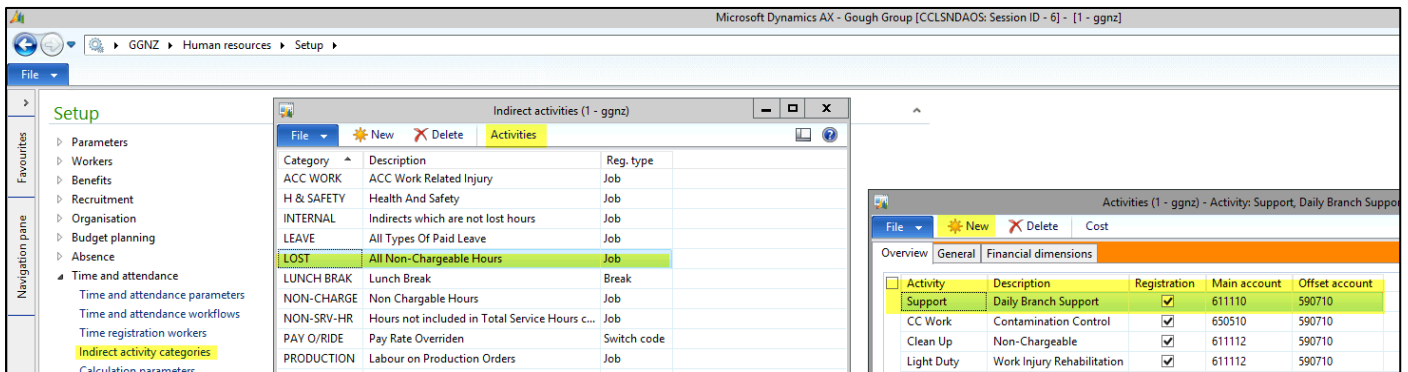

Activity	Description	Registration	Main account	Offset account
SECONDMENT	Temporary Role Change	<input checked="" type="checkbox"/>	610110	590710
COVER	Covering Absence	<input checked="" type="checkbox"/>	610110	590710

Remove the current Absence type of SECONDMENT:

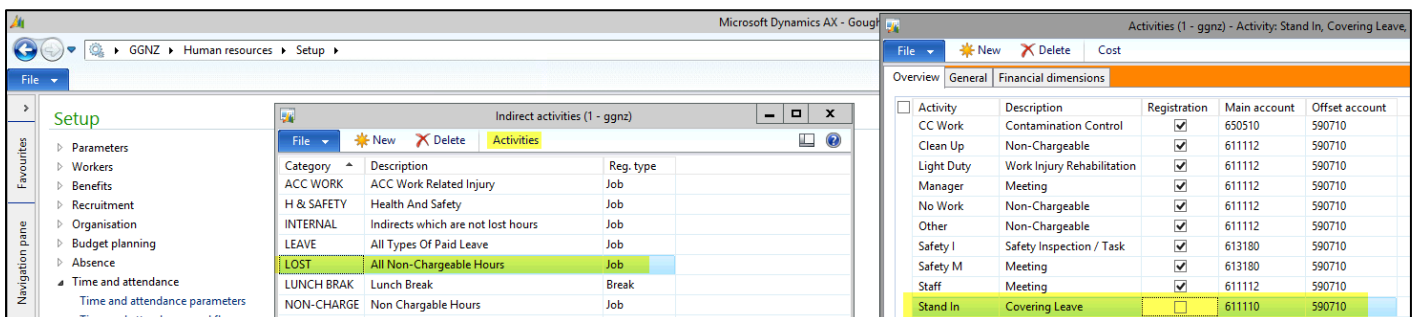

The screenshot shows the Microsoft Dynamics AX Setup window for Human resources. The left navigation pane is expanded to 'Absence groups'. The main window displays the 'Absence groups (1 - ggnz) - Absence group: PAID, Paid Absence' form. The 'Absence group' is set to 'PAID' and the 'Description' is 'Paid Absence / All Paid Leave'. The 'Properties' section shows 'Reduce flex' and 'Deduct overtime' as checkboxes. The 'Registration' section shows 'Job identification' as 'JID002197', 'Registration' as checked, and 'Icon' as '0'. The 'Identification of absence group' section is visible at the bottom.

Add a new Indirect activity of SUPPORT:

The screenshot shows the Microsoft Dynamics AX Setup window for Human resources. The left navigation pane is expanded to 'Indirect activity categories'. The main window displays the 'Indirect activities (1 - ggnz)' form. The 'Category' is set to 'LOST' and the 'Description' is 'All Non-Chargeable Hours'. The 'Reg. type' is 'Job'. The 'Activities' section shows a list of activities with their descriptions and registration status. The 'Support' activity is highlighted.

Remove the Indirect activity STAND IN:

The screenshot shows the Microsoft Dynamics AX Setup window for Human resources. The left navigation pane is expanded to 'Indirect activity categories'. The main window displays the 'Indirect activities (1 - ggnz)' form. The 'Category' is set to 'LOST' and the 'Description' is 'All Non-Chargeable Hours'. The 'Reg. type' is 'Job'. The 'Activities' section shows a list of activities with their descriptions and registration status. The 'Stand In' activity is highlighted.
