There was no need to recreate the batch job as there were already 2, one under SLADMIN and one under NAXTPRDB as per Steph's reply below

**Subject:** RE: Change of username on batch jobs

Hey Jess,  
  
I believe these are for the auto assignment of GGH employee and TC employee.  
But the GGH Employee auto assign condition has been removed so only TC employee can be assigned. You can cancel the SLADMIN one and the job should work fine 😊

**Subject:** Change of username on batch jobs

Hello,  
I am slowly going through (as per Kurt's request ages ago) and changing the username on some batch jobs to NAXTPRDB.  
There appears to be 2 "role assignment ones" and they look very much the same.  
One was created in 2017 using the NAXTPRDB username and the other was created in 2020 using SLADMIN  
Are you able to confirm that they are both the exact same? If they are then I can just turn off the SLADMIN one 😊
