# Monitor settings

PO Box 16 168 16 Branston Street, Hornby Christchurch 8441, New Zealand 03 983 2333 Tel www.TerraCat.co.nz

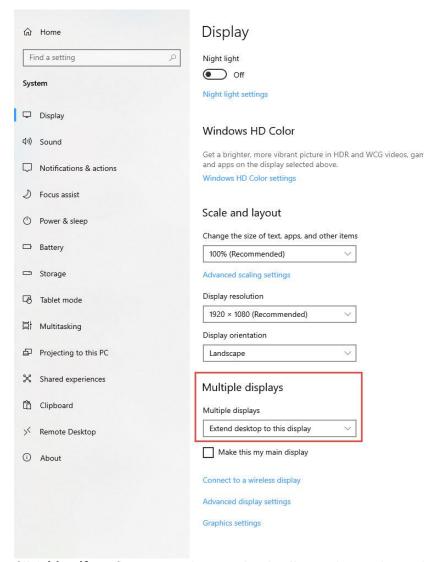

Click on the start menu and type in display > click display settings

Under multiple displays change the setting to extend desktop to this display

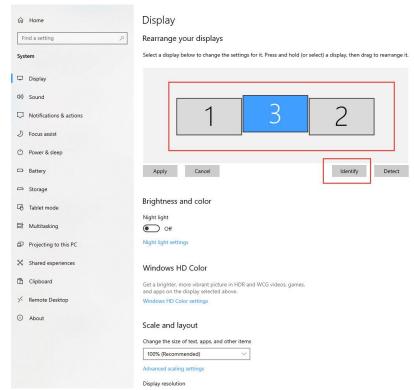

Click **identify** to figure out what number is allocated to each monitor then click on the number that you want as your main screen

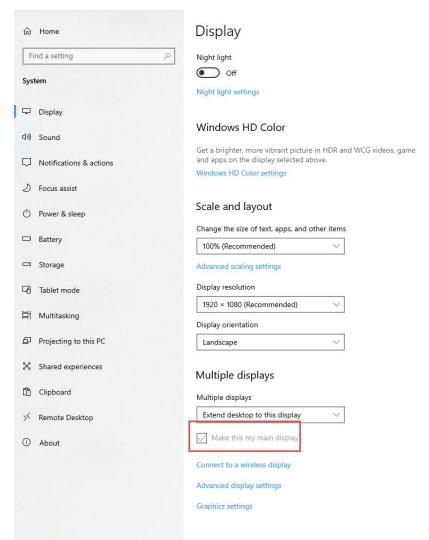

Under multiple displays tick the box next to make this my main display

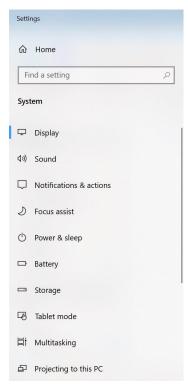

If you are finding that your mouse isn't moving across the screens the way you want to, try rearranging them in the settings like below

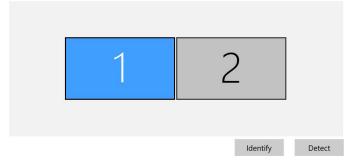

# Display

#### Rearrange your displays

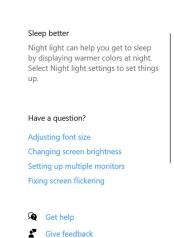

Select a display below to change the settings for it. Press and hold (or select) a display, then drag to rearrange it.

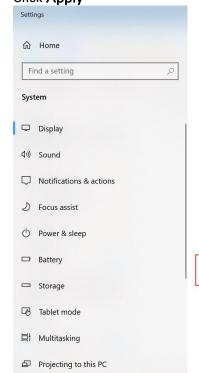

# Brightness and color

Change brightness for the built-in display

Night light

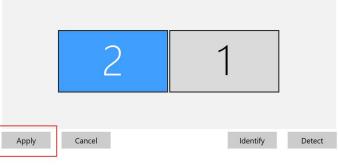

## Click Apply

## Display

### Rearrange your displays

Select a display below to change the settings for it. Press and hold (or select) a display, then drag to rearrange it.

#### Brightness and color

Change brightness for the built-in display

Night light

# Sleep better

Night light can help you get to sleep by displaying warmer colors at night. Select Night light settings to set things up.

#### Have a question?

Adjusting font size
Changing screen brightness
Setting up multiple monitors
Fixing screen flickering
